PROFESSIONAL SUMMARY

Results-driven Product Manager with 3+ years of experience delivering high-impact digital products across fintech, payments, lending, and fleet/fuel technology. Proven ability to take products from zero to scale, from a fuel card managing ₦300M+ in monthly transactions to a lending product disbursing ₦350M+ within 3 months. Combines deep technical understanding with strong stakeholder management and a data-driven approach to product decisions. Equally at home in fast-moving startups and complex enterprise environments. Passionate about building products that solve real market problems.
